SmileDesk

The clinic OS built for Indian dental clinics

edition · 06/11/2026
smiledesk.in

Run your clinic from one place.

SmileDesk brings your appointments, clinical records, billing and inventory into one browser tab — with WhatsApp confirmations and reminders built in. It is designed for the way Indian dental clinics actually work: insurance-tracked payments, GST-exempt billing, and +91 phone numbers everywhere.

BUILT FOR INDIAN DENTAL CLINICS

Patients & appointments

Day-board view, chair-level conflict detection, and a public booking widget your website can call.

Clinical records

FDI odontogram with surface marks, multi-visit treatment plans, per-visit notes and prescriptions.

Insurance-tracked billing

Cash / UPI / card in one place. Split payments between the patient and each insurer, chase pending settlements.

WhatsApp bundled

Confirmations, 24-hour reminders and invoice PDFs go out through Pulse — no separate WhatsApp subscription.

Made in India — priced for India.

₹ pricing (no USD surprises). IST defaults. DPDP-aligned. +91 phone validation. No GST math on dental services — the software honours the exemption automatically.

STARTING AT

₹7,999 / year

Per clinic. GST-inclusive. 30-day free trial.
